MR ASMAR

This beautiful, black, Straight Egyptian Stallion is all power. Names from the best in Egyptian racing bloodlines are recognized in his pedigree. His sire is the illustrious black stallion Dal Noir, son of National and Canadian National Champion, Dalul. His dam, the beautiful black mare DB Isismoniet, is a grand-daughter of the legendary *Fadell, Princess Faika Badek, Rasmoniet RSI and Fadeleka. What better ancestors could he have?

Asmar is one of only a very few, perhaps only, known black Straight Egyptians sons of Dal Noir, and one of the very few black Egyptian descendants of Dalul. Not only does Asmar's color and breeding make him an exceptional stallion, so does his conformation and disposition. His beautiful head with its big, dark eyes, is well set with good width of jaw and windpipe. His shoulders are angled to allow freedom of movement; his chest is broad, and his girth deep. His legs and feet are near perfect with excellent strong bone. (His cannon bones are over 8" around just below the knee.) His rump is slightly rounded and attached to a strong gaskin - all of which means the conformation that made Asmar's ancestors great race horses in Egypt, has been passed on to give him the ability to perform, and will continue to be passed on to his offspring, giving them the capability of excelling on the track, the trail, or in the show ring.

Asmar has been trained and shown with success in Hunter and English Pleasure by Jesse Saldana in California, and in Western Pleasure by Nellie Churchill in Utah. He also has had success showing in trail classes and in dressage. His half sister (same dam) was winner of almost every class she was ever in, including such prestigious shows as the Reg. III show and Scottsdale. She also did extremely well in endurance, until a knee injury forced her retirement.
